Seventy-first session
Second Committee
Agenda item 19
Sustainable development

Thailand:* draft resolution

Combating sand and dust storms

The General Assembly,

Reaffirming its resolution [70/1](#) of 25 September 2015, entitled “Transforming our world: the 2030 Agenda for Sustainable Development”, in which it adopted a comprehensive, far-reaching and people-centred set of universal and transformative Sustainable Development Goals and targets, its commitment to working tirelessly for the full implementation of the Agenda by 2030, its recognition that eradicating poverty in all its forms and dimensions, including extreme poverty, is the greatest global challenge and an indispensable requirement for sustainable development, its commitment to achieving sustainable development in its three dimensions — economic, social and environmental — in a balanced and integrated manner, and to building upon the achievements of the Millennium Development Goals and seeking to address their unfinished business,

Reaffirming also its resolution [69/313](#) of 27 July 2015 on the Addis Ababa Action Agenda of the Third International Conference on Financing for Development, which is an integral part of the 2030 Agenda for Sustainable Development, supports and complements it, helps to contextualize its means of implementation targets with concrete policies and actions, and reaffirms the strong political commitment to address the challenge of financing and creating an enabling environment at all levels for sustainable development in the spirit of global partnership and solidarity,

Recalling United Nations Environment Assembly resolution [2/21](#) of 27 May 2016 on sand and dust storms,¹ the inclusion of sand and dust storms as one of the subject areas to be addressed under the subprogramme on chemicals, waste and air

* On behalf of the States Members of the United Nations that are members of the Group of 77 and China.

quality in the programme of work of the United Nations Environment Programme for 2018-2019, as approved by the United Nations Environment Assembly in its resolution 2/20 of 27 May 2016,¹ and the strategic plan of action to be developed in that regard,

Recalling also United Nations Environment Assembly resolution 1/7 on strengthening the role of the United Nations Environment Programme in promoting air quality,²

Commending the commitment of the Economic and Social Commission for Asia and the Pacific to addressing regional cooperation to combat sand and dust storms at the regional level, and in this regard taking note of Commission resolution 72/7 of 19 May 2016 on regional cooperation to combat sand and dust storms in Asia and the Pacific, adopted during its seventy-second session,

Recalling its resolution 66/288 of 27 July 2012, which endorsed the outcome document of the United Nations Conference on Sustainable Development, entitled “The future we want”,

Recalling also its resolution 70/206 of 22 December 2015 on the implementation of the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa,

Taking note of the Regional Programme to Combat Sand and Dust Storms of the United Nations Environment Programme, and also taking note of other initiatives, including the ministerial meeting on sand and dust storms held in Nairobi on 21 February 2013 on the margins of the twenty-seventh session of the Governing Council/Global Ministerial Environment Forum of the United Nations Environment Programme,

Recalling the Sendai Declaration and the Sendai Framework for Disaster Risk Reduction 2015-2030, adopted at the Third United Nations World Conference on Disaster Risk Reduction and endorsed by the General Assembly in its resolution 69/283 of 3 June 2015, and recognizing that one of the priorities for action of the Framework is an understanding of disaster risk for prevention and mitigation and for the development and implementation of appropriate preparedness and effective response to disasters, which continue to undermine efforts to achieve sustainable development,

Acknowledging that, based on the notion of hazards as defined in the Hyogo Framework for Action 2005-2015: Building the Resilience of Nations and Communities to Disasters,³ addressing multidimensional hazards, including those posed by dust and sandstorms, contributes towards the achievement of the goals, targets and priorities for action set out in the Sendai Framework for Disaster Risk Reduction 2015-2030,

Emphasizing the relevance of the efforts and cooperation of Member States at the regional and international levels to control and reduce the negative impacts of dust and sandstorms on human settlements in vulnerable regions, taking note of the

initiative of the Islamic Republic of Iran in hosting a regional meeting of environment ministers in Tehran on 29 September 2010, and welcoming the holding of other meetings with the active participation of all countries,

Stressing the need for cooperation at the global and regional levels with a view to preventing and managing dust and sandstorms through the development of early warning systems and the sharing of climate and weather information to forecast dust storms and sandstorms, and affirming that resilient action to combat sand and dust storms requires a better understanding of the severe multidimensional impacts of dust and sandstorms, including the deterioration of the health, well-being and livelihood of people, increased desertification and land degradation, deforestation, loss of biodiversity and land productivity, and their impact on sustainable economic growth,

1. *Recognizes* that dust and sandstorms, and the unsustainable land-management practices, as well as the adverse effects of climate change, among other factors that can cause or exacerbate these phenomena, pose a serious challenge to the sustainable development of affected countries and regions, also recognizes that, in the past few years, dust and sandstorms have inflicted substantial economic, social and environmental damage on the inhabitants of the world's arid, semi-arid and dry subhumid areas, especially in Africa and Asia, underscores the need to treat them and to promptly undertake measures to address those challenges, and decides to convene a high-level plenary meeting of the General Assembly in 2017, during its seventy-second session, to discuss action-oriented recommendations to address the economic, social and environmental challenges of the affected countries, including ways to improve policy coordination at the global level to address those challenges and to prevent and control the main causes of sand and dust storms in the context of the Sustainable Development Goals;⁴

2. *Acknowledges* the role of the United Nations system in advancing international cooperation and support to combat sand and dust storms, and invites all relevant bodies, agencies, funds and programmes of the United Nations system, including the United Nations Environment Programme, the United Nations Development Programme, the World Meteorological Organization, the World Health Organization, the United Nations Convention to Combat Desertification in Those Countries Experiencing Serious Drought and/or Desertification, Particularly in Africa, and all other related organizations to integrate, in their respective cooperation frameworks, operational programmes, measures and actions aimed at combating sand and dust storms so as to address this problem and contribute to the enhancement of, inter alia, capacity-building at the national level, the implementation of regional and subregional projects, the sharing of information, best practices and experiences and the boosting of technical cooperation in the affected countries and countries of origin, to improve the implementation of sustainable land management practices and to undertake measures to prevent and control the main factors of sand and dust storms and the development of early warning systems as tools to combat sand and dust storms in accordance with their strategic plans;

⁴ Resolution [70/1](#).

3. *Encourages* regional, subregional and interregional organizations and processes to continue to share best practices, experiences and technical expertise in combating dust and sandstorms, including through improved implementation of sustainable land-management practices, and to promote regional cooperation on this matter;

4. *Invites* all countries affected as well as relevant entities of the United Nations development system, regional organizations and other relevant stakeholders to endeavour to meet the objectives set out in the present resolution;

5. *Reaffirms* that climate change is one of the greatest challenges of our time and, among other factors, is a serious challenge to the sustainable development of all countries, including those affected by sand and dust storms;

6. *Commends* the commitment of the United Nations Environment Assembly to address sand and dust storms, and in this regard notes Environment Assembly resolution 2/21 on sand and dust storms, adopted during its second session;¹

7. *Welcomes* the intention of the Islamic Republic of Iran to host an international conference on combating sand and dust storms, with the cooperation of the United Nations Environment Programme, the United Nations Development Programme and the Department of Economic and Social Affairs of the Secretariat, as well as other relevant United Nations entities, in 2017;

8. *Acknowledges* the global assessment of sand and dust storms, prepared by the United Nations Environment Programme in collaboration with other relevant United Nations entities, including the World Meteorological Organization and the secretariat of the United Nations Convention to Combat Desertification, and transmitted by the Secretary-General of the United Nations to the General Assembly in accordance with General Assembly resolution 70/195 of 22 December 2015,⁵ which sets out proposals for consolidated and coordinated technical and global policy options for responding to sand and dust storms to help create awareness of the potential for integrated and synergistic actions across sectors and foster integrated cooperation among relevant institutions at the global level;

9. *Requests* the Secretary-General to submit to the General Assembly at its seventy-second session a report on the implementation of the present resolution;

10. *Decides* to include in the provisional agenda of its seventy-second session, under the item entitled “Sustainable development”, a sub-item entitled “Combating sand and dust storms”.
