Welcoming the poverty-related discussions in the annual ministerial reviews held by the Economic and Social Council, which play an important supporting role in the implementation of the Second United Nations Decade for the Eradication of Poverty (2008-2017),

Noting with appreciation the ministerial declaration adopted at the high-level segment of the substantive session of 2006 of the Economic and Social Council on creating an environment at the national and international levels conducive to generating full and productive employment and decent work for all, and its impact on sustainable development,³ and also Economic and Social Council resolution 2010/25 of 23 July 2010 entitled “Recovering from the world financial and economic crisis: a Global Jobs Pact”,

Recalling its resolution 63/303 of 9 July 2009 on the outcome of the Conference on the World Financial and Economic Crisis and Its Impact on Development,

Recalling also the Doha Declaration on Financing for Development: outcome document of the Follow-up International Conference on Financing for Development to Review the Implementation of the Monterrey Consensus,⁴

Recalling further the outcomes of the World Summit for Social Development⁵ and the twenty-fourth special session of the General Assembly,⁶

Recalling the High-level Plenary Meeting of the sixty-fifth session of the General Assembly on the Millennium Development Goals and its outcome,⁷

Underlining the fact that, in the face of the current multiple, interrelated global crises and challenges, such as the financial and economic crisis, the food crisis, volatile energy and commodity prices and climate change, cooperation and increased commitment by all relevant partners, including the public sector, the private sector and civil society, are needed more than ever, and recognizing in this context the urgent need to achieve the internationally agreed development goals, including the Millennium Development Goals,

Expressing concern that, after the First United Nations Decade for the Eradication of Poverty (1997-2006) and five years from the 2015 target date of the Millennium Development Goals, while there has been progress in reducing poverty in some regions, this progress has been uneven and the number of people living in poverty in some countries continues to increase, with women and children constituting the majority of the most affected groups, especially in the least developed countries and particularly in sub-Saharan Africa,

Recognizing that rates of economic growth vary among countries and that these differences must be addressed by, among other actions, promoting pro-poor growth and social protection,

9. *Emphasizes* that education and training are among the critical factors in empowering those living in poverty, while recognizing the complexity of the challenge of poverty eradication, and in this regard recognizes the role of the United Nations Educational, Scientific and Cultural Organization, in particular its contribution to international advocacy for eradicating poverty by, inter alia, elaborating pedagogical tools for grass-roots organizations and policymakers;
